

Amendment to Specification

Please replace Second Paragraph (lines 3-17) of Page 4 with:

“To accomplish the above object of the present invention, according to the present invention, there is provided a chair with a combination back support and cover plate comprising: a frame whose lower part is fixed to another object; a seat which is installed on the upper portion of the frame; a back support which is hinged and connected with one end of the seat; a hinge portion which connects the seat and the back support by means of hinge connection; an elastic support unit which is installed between the seat and the frame, for elastically supporting the seat; a closing unit which pulls the back support toward the seat if the front end of the seat moves up by the elastic support unit when a user stands up from the seat; and a slow-downer which is connected with the hinge portion and the back support, to slow down ~~for slow-downing~~ the back support at low speed.”
